

Friend of Peninsula State Park Golf Course:

We frequently receive requests from people wishing to plant a tree in memory of a loved one who has passed away or to honor someone. In response, we have developed a Memorial Tree Program at Peninsula State Park Golf Course. Here is how the program works:

The person making the request completes the “Memorial Tree Request” form below providing the necessary information:

1. The name of the person to be remembered or honored.
2. Choose a preferred species of tree from the list. Trees listed are native to Door County.
3. You will be contacted regarding the planting location. Site selection will be made from a plan that has been developed for where trees are needed on the golf course. The name of the person for whom the tree is planted is placed on a wooden plaque on the north side of the clubhouse.
4. Attach a check to the request form in the amount of \$300, payable to “Peninsula Golf Associates”. This will buy a mature tree with a higher survival rate and is normally guaranteed for one year.

Peninsula State Park or Peninsula Golf Associates are not responsible to replace or maintain trees that become infected with a disease, insects and/or damaged by an act of nature. If you have any questions, contact Jason Daubner, PGA General Manager at 920.854-5791.

We know that Peninsula State Park Golf Course is a very special place for many people who live in or visit Door County. We are pleased to offer this opportunity and thank you for your consideration.

Sincerely,

Eric Hyde
 Park Superintendent
